FRANCE  
Burgundy  
Chablis

*The crisp and mineral side of Chardonnay, with a tart and steely character. In its youth, aromas of seaspray, oyster shells, nuts, lemon custard, and mushrooms are profound. As the wines develop with age, butter, honey, and oozing cheese aromas are intensified. Flavors of tart green apple, and lemon with razor-like texture and acidity. Soil type: Kimmeridgian marl, Clay/Limestone*

## Meursault

*The soil in Meursault benefits from an extremely low water table, forcing its vines to drive its roots deep into the ground in search of water. This gives the vines access to mineral deposits rich in iron and magnesium that translate into the wines. Coche-Dury and Roulot are the most highly-regarded domaines.*

## Côte de Beaune Puligny-Montrachet

*The village of Puligny is considered to be the ideal terroir for Chardonnay. With 4 Grand Crus and many Premier Crus surrounding them, Puligny is home to some of the most sacred vineyard ground in all of France, and possibly the world. These wines are generally on the riper side of Chardonnay, and can age gracefully. Look to Etienne Sauzet, Paul Pernot, and Domaine Leflaive for premier examples.*

*Soil type: Limestone, Oolitic ironstone, flinty clay, marl and calcareous topsoils*

0499 Bernard Moreau, Chevalier-Montrachet 2010 850

0486 Paul Pernot, Bâtard-Montrachet 2011 795

## Chassagne-Montrachet

*The white wines of Chassagne-Montrachet have power, and a round, creamy mouthfeel that is seductive. The wines are more floral than the wines found in Puligny, with slightly more use of new French oak during élevage. Top-tier producers include Ramonet, Marc Colin and the rising stars, Bernard Moreau and Pierre-Yves Colin-Morey.*

*Soil type: Oolitic Bathonian limestone*

## Côte de Beaune

### Saint Aubin

*While not the most famous of the Cote d'Or villages, Saint-Aubin is one of Burgundy's top-performing wine communes in terms of both volume and vineyard quality; nearly three-quarters of its sites have Premier Cru status. As well, while Saint-Aubin wines are rarely considered to be among the region's finest, they are known for offering excellent value for money and can provide a good introduction to Burgundy wines. Pierre-Yves Colin-Morey is based out of here and produces some of the most stunning examples.*

## Loire Valley

*Some of the world's most mineral wines from various soils loaded with limestone and silex. The wines are flinty and highly perfumed with musky aromas of flowers, tart green apples, gooseberry, and a distinctive herbaceous quality reminiscent of fresh-cut grass. The palate delivers fresh grapefruit zest, and high-pitched citrus flavors. This is terroir at its finest. Here are a few of the most consistent producers:*

## FRANCE Loire Valley

*These wines are produced in both dry and off-dry styles, and benefit from high mineral content in the tuffeau soils from which the vines grow. Tart tree fruit, lemon, chamomile, and ginger dominate the nose and palate. The more oxidative versions found in Savennières and Vouvray can give off aromas of hay, lanolin, pistachios, and bruised apples. All of the wines have crisp and piercing acidity, and can be great matches with our menu.*

**ALSACE**

Bottle

*Alsace is the only region in France known for its Riesling. It produces a rich and powerful style that is classically fermented dry, but many versions of off-dry and sweet Rieslings can also be found. These wines are known less for their citrus character and more for their floral aromatics and steeliness.*

## GERMANY

**MOSEL**

*Wines from the Mosel are some of the most transparent wines in the world. The wines are the lightest and most mineral-driven Rieslings in all of Germany, producing wines that are incredibly compatible with food. The climate in the Mosel is marginal and grapes struggle to ripen. Steep vineyard slopes create quick drainage, so vines must penetrate the slate beneath them to access water deep below the surface.*

*Soil type: Devonian blue and red slate*

## Chambolle-Musigny

*Many people believe that Chambolle-Musigny produces the world's ideal expression of Pinot Noir. It has richness and finesse, yet still retains an underlying power and firmness. Higher amounts of chalk in the vineyards, and more wind, give the wines more acidity and higher aromatics.*

## SPAIN

### Rioja

*The most famous red wines of Spain come from Rioja. These wines age gracefully and can develop intriguing aromas of sweet red cherry, vanilla, cinnamon, cedar and cigar tobacco. Rioja produces medium-bodied red wines with sweet and sour red cherry flavors and gripping tannins that come from extended aging in traditional American oak barrels.*

## ITALY Piedmont Langhe

*Soil type: Calcareous marl, sand and clay*

*The Nebbiolo grape from Northern Italy's Piedmont region produces some of the longest lived wines in all of Italy. They are medium-bodied red wines with dry tannins and vibrant acidity. The sturdier versions of Barolo can be found in Serralunga d'Alba and Montforte d'Alba, while the softer, more elegant styles can be found in La Morra and the commune of Barolo itself. Look to Barbaresco for this same element of delicacy and finesse and earlier drinking versions of Nebbiolo.*

# Sangiovese

ITALY

Tuscany

*The wines of Tuscany have seen a rush of development over the last few decades, and the Chiantis and Brunellos of the modern era are powerful and assertive. However, the producers below represent the old-world traditionalist methods of production that remain elegant and are true representations of the region. The 'galestro' soils in Tuscany give these wines a unique earthiness. Sangiovese is a medium-bodied red wine that has characteristics of tart red cherry, with underlying aromas of vanilla, leather and dried herbs.*

## Northern Rhône

*The Syrah of the Northern Rhône Valley is the greatest single expression of the Syrah grape on planet earth. It announces itself wildly with roasted aromas of black pepper, coffee grind, olives, charcoal, and game, with complex fruit flavors of tart blackberry.*

## FRANCE Southern Rhône

*The brut strength of the Rhône Valley can be found in the villages of Châteauneuf-du-Pape and Gigondas. These villages are some of the warmest sun-baked climates in France, and heat is stored in rocks that cover the vineyards, called 'galets'. Typically, wines are Grenache-based, with Syrah, Mourvèdre & other grapes blended in.*

*Although St-Estèphe may lack the number of classified growths when compared with the other communes of the Médoc, this is a region that provides rich, fruity wines that are more consistent with each vintage than any other appellation on the left-bank of the Gironde river. There are great values to be found in St-Estèphe with its ongoing reputation for consistency, even in sub-par vintages.*

### PAUILLAC

Perhaps the world's most famous red wines are from Pauillac. It boasts three out of the five first-growth châteaux and consistently leads the world of wine in popularity, investment, and most certainly in price. Cabernet Sauvignon is king here. These wines are built to last for decades with structure, muscular tannins, concentrated fruit, and rich flavors of black currant, cedar, menthol and clove spice.
